Co. Dublin

Ref: Complaints Regarding Poor Sound Insulation Between Homes

Dear Cllr. Butler,

Are you receiving complaints from your constituents regarding poor levels of sound insulation in their homes? As a result of my appearance on a recent episode of Duncan Stewart's "About the House" on RTE I have been receiving an increasing number of calls from disgruntled residents regarding this particular issue. Typical complaints include being able to hear their neighbours conversations, televisions, telephones etc.

As members of the Institute of Acoustics we are fully qualified and equipped to assess compliance with Part E of the Building Regulation 1997. If you have a requirement for sound insulation testing please contact us.

Yours sincerely

Jim Dunne, MSc Acoustics, MIOA,
Senior Acoustician,
Managing Director.
